1. Tell me about yourself.

This is your chance for a brief, professional summary. Focus on your relevant skills, experience, and career aspirations that align with the job. Don't recite your entire resume.

Example :

Good morning /Afternoon sir /mam , I am [Name] from [Place]. Currently pursuing [Class] from [College] with CGPA of [your CGPA]. I have completed my [before course] from [College/School] with CGPA of [your CGPA]. My short-term goal is to [your short-term goal]. And my long-term goal is [your long-term goal]. My skillsets are [known technologies , languages , tools include]. I have done project on [title of the project] where it involves [description of the project]. I have done certification course on [completed course if any]. I have won [First Prize in Symposium conducted by ABC College]. I have got scholarship of [any merit scholarships if received]. And my hobbies are [playing chess, listening to music , reading books]. I have done internship of 3 months as [Data Analyst] in ABC Company. I have volunteered for [any events if any].

2. Tell me about your hobbies.

Tell the hobbies like productive one so that interviewer will know you are having productive hobbies [Not wasting time on any useless things]

Example:

I enjoy reading, particularly books on [relevant topic] which helps me stay updated with industry trends. I also love hiking on weekends as it helps me maintain a healthy work-life balance and keeps me energized. Additionally, I volunteer at a local community centre, which has taught me valuable teamwork and communication skills that I apply in my professional life.

3. What's a fun fact about you?

Interviewers ask this to see personality, creativity, and how candidates express themselves. The key is to choose something unique, engaging, and memorable while keeping it professional. The fun fact should ideally:

- Show a skill, interesting experience, or a unique habit.
- Spark curiosity or lead to further discussion.
- Be something positive and lighthearted.

Example:

A fun fact about me is that I can solve a Rubik's cube in under 2 minutes! It started as a small challenge, but now it's something I really enjoy. It helps me with problem-solving, patience, and thinking ahead, which are useful skills in everyday life!

4. Do you have a favorite book, movie, or TV show?

This question helps interviewers get a sense of your interests, personality, and communication skills. The best way to answer it is to:

- Pick something meaningful that reflects your values or insights.
- Explain why you like it—mention a theme, lesson, or impact.
- Keep it engaging and avoid controversial choices unless relevant.

Example:

One of my favorite books is *Atomic Habits* by James Clear because it offers great insights into personal growth and building better habits. It really changed my perspective on how small, consistent improvements can lead to big transformations over time.

As for movies, I love *The Pursuit of Happyness* because of its inspiring story about perseverance and overcoming challenges. The dedication and resilience shown by the main character motivate me to stay determined, no matter what obstacles come my way.

5. What's your preferred way to spend a weekend?

Show a mix of relaxation and productivity to indicate a balanced lifestyle.

Highlight personal interests that reflect curiosity or creativity.

Keep it engaging and genuine so it doesn't sound generic.

Example:

I like balancing relaxation and productivity over the weekend. Sometimes, I spend my weekends reading books, exploring new places, or engaging in a creative hobby like photography or painting. I also make sure to spend time with friends and family—it's important to recharge and connect with people. This helps me stay refreshed for the week ahead while also learning or experiencing something new.

6. If you could visit any place in the world, where would it be?

Pick a specific place instead of a vague answer.

Explain why you want to visit—mention history, culture, nature, or personal connection.

Keep it engaging to spark conversation.

Example:

If I could visit any place in the world, I would love to explore Switzerland. The breathtaking landscapes, serene lakes, and picturesque mountains have always fascinated me. I enjoy nature and adventure, so experiencing the Swiss Alps, taking scenic train rides, and immersing myself in the peaceful atmosphere would be incredible. Plus, I'd love to try authentic Swiss chocolate while enjoying the stunning views!

7. What motivates you in life?

Focus on intrinsic motivation (personal growth, impact, passion) rather than just external factors (money, success).

Connect it to your goals or how it influences your work ethic.

Keep it authentic and positive to show enthusiasm and ambition.

Example:

It is the continuous opportunity to learn and grow. I enjoy challenging myself, improving my skills, and making a meaningful impact—whether in my work or in the lives of people around me. The ability to solve problems and contribute to something bigger than myself keeps me engaged and excited. Also, seeing progress, both personally and professionally, is something that truly drives me.

8. How do you typically start your day?

Reflect organization and positive habits that set a productive tone.

Show a balance of preparation, motivation, and personal well-being.

Be engaging rather than generic.

Example:

I typically start my day by waking up early and following a structured routine. I begin with some light exercise or stretching to feel energized, followed by a healthy breakfast to stay focused. I then spend a few minutes reviewing my goals for the day, organizing my tasks, and mentally preparing for my work. This helps me stay motivated and ensures I approach my day with a clear direction.

9. Do you prefer working alone or in a team?

Show flexibility—acknowledge the benefits of both working alone and in a team.

Provide an example that demonstrates your experience in both scenarios.

Align with the job role—if teamwork is crucial, emphasize your collaboration skills; if independent work is valued, highlight your self-management.

Example:

I enjoy both working independently and collaborating with a team. When working alone, I focus deeply, manage my time effectively, and take full ownership of tasks. However, I also appreciate teamwork because it brings diverse perspectives, encourages problem-solving, and fosters innovation.

For example, in my previous experience, I worked independently on research tasks to ensure accuracy and efficiency. At the same time, I collaborated with teammates to brainstorm ideas, share insights, and improve the final outcome. I believe a balance between independent thinking and team collaboration leads to the best results.

10. What's a memorable experience you've had recently?

A memorable experience I had recently was volunteering at a local community event. We organized activities for children, helped distribute food, and engaged in meaningful conversations with families. Seeing the joy on people's faces and knowing that a small effort could make a big difference was truly rewarding. It reminded me of the importance of giving back to the community and inspired me to be more involved in such initiatives.

11. If you could meet any historical figure, who would it be and why?

If I could meet any historical figure, I would choose Dr. APJ Abdul Kalam. His contributions to India's space and defense programs, along with his dedication to education and youth empowerment, inspire me greatly. I admire how he remained humble despite his achievements and always encouraged learning and innovation. If I had the chance, I would ask him about his journey, mindset, and advice on perseverance and creativity.

12. What's a personal achievement you're really proud of?

I'm really proud of is learning and mastering public speaking. Initially, I was nervous about speaking in front of others, but I actively worked on it by participating in debates, presentations, and group discussions. Over time, I gained confidence, improved my articulation, and learned how to engage an audience. Now, I feel comfortable speaking in different settings, and it has helped me not only in professional situations but also in everyday interactions.

13. If you had unlimited time and resources, what would you love to learn?

I would love to learn multiple languages fluently. Language connects people and cultures, and being able to communicate across different countries would be incredible. I've always admired how languages shape perspectives and relationships, and I believe learning them would broaden my understanding of the world.

14. Do you believe in luck, or do you think we create our own opportunities?

I believe that while luck can play a role, we mostly create our own opportunities through hard work, preparation, and persistence. Success doesn't just happen—it's often the result of effort, learning, and making smart decisions.

15. If you had a superpower, what would it be and why?

If I had a superpower, I would choose the ability to instantly acquire knowledge and skills. Imagine being able to master languages, coding, art, or any subject instantly—it would be like having limitless learning potential! I love the idea of continuously growing and adapting, and this superpower would allow me to contribute meaningfully in different fields and help others learn as well.

16. What's a skill you admire in others but haven't mastered yet?

A skill I truly admire in others but haven't mastered yet is storytelling. Whether it's public speaking, writing, or presenting ideas, great storytellers captivate and inspire people.

I've seen how strong narratives make complex ideas easier to understand and connect emotionally with audiences. I'm working on improving my storytelling skills through reading, observing great speakers, and practicing engaging ways to communicate.

17. If you could describe yourself in three words, what would they be?

If I had to describe myself in three words, they would be adaptable, curious, and determined.

I say adaptable because I thrive in different environments and quickly adjust to new challenges. Curious, because I'm always eager to learn, explore ideas, and grow personally and professionally. And determined, because when I set my mind to something, I stay committed to achieving it, no matter the obstacles.

18. What are your greatest strengths?

One of my greatest strengths is my ability to learn quickly. For instance, during my final-year project on diabetic retinopathy detection, we decided mid-way to switch from a traditional CNN to EfficientNet. Although I hadn't used it before, I spent a few days studying it thoroughly, implemented it

Lastly, I communicate well within a team. As part of my YouTube channel and college events, I've hosted tech sessions, which helped me explain technical ideas clearly and confidently.

19. Describe a weakness you're working on.

I used to struggle with public speaking, especially during group presentations or events. Even though I was confident in the content, I often became nervous while speaking in front of larger audiences.

To work on this, I started volunteering for anchoring college events and hosting short sessions on my YouTube channel. This gave me consistent speaking practice and helped me become more comfortable and clear while presenting.

20. How do you handle failure or setbacks?

I see failure and setbacks as opportunities to learn and improve. Instead of getting discouraged, I analyze what went wrong, identify areas for improvement, and adjust my approach.

For example, in a previous project, I faced a major challenge where a strategy I implemented didn't yield the expected results. Rather than feeling defeated, I reviewed the feedback, collaborated with my team, and found a new approach that ultimately worked better. That experience taught me the importance of adaptability and perseverance.

21. How do you manage your time and stay organized?

I manage my time effectively by prioritizing tasks based on urgency and importance. I use tools like to-do lists and calendar apps to structure my day and ensure deadlines are met.

For example, when handling multiple assignments, I break them into manageable steps, set clear timelines, and allocate focused work periods. I also follow the **80/20 rule**—focusing on high-impact tasks first while minimizing distractions.

22. Describe your ideal work environment

My ideal work environment is one that promotes **collaboration, innovation, and continuous learning**. I thrive in a setting where teamwork is encouraged, but individual contributions are also valued.

A culture that fosters **open communication and problem-solving** keeps me motivated

23. Describe your work style

My work style is a blend of **structured organization and adaptability**. I focus on setting clear goals and prioritizing tasks efficiently, but I also remain flexible to changes and challenges.

I thrive in **collaborative environments** where brainstorming and teamwork drive innovation, but I also value independent work, where I can take initiative and focus deeply on problem-solving.

24. How do you define success?

For example, success to me isn't just about completing a project—it's about how much I learned, how effectively I collaborated, and how it helped others or created value. Whether it's small wins or major breakthroughs, success is about progress and purpose.

25. What Do You Do When You Don't Know the Answer?

When I don't know the answer, I take the initiative to research and seek guidance from colleagues or mentors. I believe in the importance of asking questions and learning from others to find the best solution.
